TV5: Combine Big Performance with Compact Size

With 30% greater reception than other 45 cm (18-inch) systems, you'll enjoy satellite TV reception where few others can provide it. TracVision TV5 offers outstanding high performance tracking and reception. This rugged system is ideal for vessel venturing off shore.

SPECIAL PRICE \$4,740.00

TV6: Enjoy Your Favorite Television Programming Everywhere

TracVision TV6 makes it easier than ever to enjoy your favorite television programming no matter where your seagoing adventures take you. This 60 cm (24 inch) marine satellite television antenna not only provides access to satellite television services worldwide, it supports multiple receivers so everyone onboard can watch what they want. Designed for an extended coverage area, this system is suited for boats heading offshore for short or long voyages.

SPECIAL PRICE \$6,995.00
